Dear KS4 Parents,

We are pleased to provide you with our new Year 10 and 11 Curriculum Calendar, designed to provide a clear, accessible overview of what students will be learning in each subject throughout the academic year, with the aim of allowing every student to flourish on their academic journey.

The calendars bring together the subject curriculum and academic calendar, helping students and parents understand what is being taught, when formal assessment will take place, and giving oversight of the rhythm of the academic year. These calendars are intended to complement the more detailed subject Curriculum Handbooks and course specifications.

The intent of our curriculum is as follows:

Knowledge – *Know More*

Students build deep, connected knowledge through carefully sequenced curricula that develop long-term understanding, strengthen meaningful connections and enable increasingly sophisticated thinking.

Skills – *Do More*

Students develop subject-specific expertise alongside the ability to think critically and creatively, solve problems, communicate effectively and apply their learning with confidence.

Character – *Become More*

Students develop the attitudes, values and behaviours that enable them to be resilient, respectful, responsible and reflective individuals who demonstrate curiosity, kindness, integrity and leadership.

Future Readiness – *Contribute More*

Students develop the agency and adaptability to navigate change, challenge and uncertainty and the confidence to lead, collaborate and contribute positively to their communities and the wider world.

Everyone Counts, Everyone Contributes, Everyone Succeeds

**HORIZON
INTERNATIONAL
SCHOOL**

We have structured our calendar around the principle of protecting what is important, when it is important. Alongside dedicated curriculum time, the year includes:

Progress Weeks

Dedicated time for formal in-class assessment, providing students and teacher with opportunities to check understanding and measure progress.

CRAFT (Correction, Reflection and Acting upon Feedback Time)

Following assessments, students have dedicated opportunities to understand their performance, address misconceptions and act on feedback.

Gold Weeks

Opportunities to explore beyond the traditional curriculum through enriching, challenging and transformational learning experiences, both in and out of the classroom.

Summit Weeks

At the end of the academic year, providing students opportunities for students to demonstrate, celebrate and apply their learning in a variety of internal and external assessments.

Please note: Progress Weeks and Summit Weeks are applicable in Year 10. In Year 11, 12 and 13, students should expect to engage in regular assessment opportunities throughout the year to support their progress towards final GCSE and A Level examinations.

Our Key Stage 4 and 5 Curriculum is organised into the following strands:

ACADEMIC

Developing knowledge, understanding and subject-specific expertise required to achieve highly and prepare successfully for their future pathways. This includes subjects leading to externally recognised GCSE and A Level qualifications, alongside compulsory academic provision such as Arabic and Islamic Studies.

FUTURE READINESS

Developing character, agency and the future-ready skills to flourish beyond school, navigate change, challenge and uncertainty and to contribute positively to their communities and the wider world. This includes PSHE, Moral, Social and Cultural Studies, Physical Education, Community Service, Directed and Independent Study, IEPQ and leadership opportunities.

Supporting your child's learning journey

By giving students and parents a clear view of the journey ahead, we hope to support greater engagement, better preparation and a stronger understanding of the rich educational experiences available at Horizon International School.

We hope you find the Curriculum Calendars useful in supporting your child's learning journey through the year.
